REYMAR MILLENA

Education

Bachelor of Secondary Education
North Davao Colleges
2016 - 2017

Bachelor of Science in Information Technology
Davao del Norte State College
2008 - 2012

Skills

- PHP
- LARAVEL
- CODE IGNITER
- JAVA SCRIPT
- VEU JS
- FLUTTER
- DART
- MSSQL
- MYSQL
- VISUAL BASIC
- QGIS

Certification

Google Digital Marketing & E-commerce Professional Certificate
Coursera (2024)

Getting started with Google Workspace Specialization
Coursera (2024)

Cybersecurity Foundations Specialization
Coursera (2024)

Introduction to Data Science and scikit-learn in Python
Coursera (2024)

Profile Summary

Experience in designing and maintaining dynamic web applications. Proficient in **PHP, MySQL, MSSQL,** and frameworks like **Laravel and CodeIgniter**, with expertise in **JavaScript** and **Vue.js** for responsive and user-friendly interfaces, **Flutter** and **Dart** for mobile app development. Focused in developing scalable and secure solutions with a strong emphasis on database integration and performance optimization. Proficient in data visualization and farm mapping using **QGIS** to support strategic decision-making. Accomplished problem-solver with a proven history of delivering projects on time while utilizing innovative technologies to enhance functionality and efficiency.

Work Experience

2020 – PRESENT

Data Analyst
Tagum Agricultural Development Company, Inc

- Responsible in collecting, processing, and analyzing complex datasets to deliver actionable insights that drive strategic decision-making and operational efficiency. Proficient in utilizing advanced analytical tools and methodologies to identify trends, generate detailed reports, and support business objectives. Skilled in ensuring data accuracy and consistency through rigorous quality assurance, fostering reliable data-driven strategies.
- Develop web applications for data gathering and data visualization using **PHP, Laravel, CodeIgniter, JavaScript, Vue.js, Flutter, Dart, MSSQL, MySQL, and Visual Basic**. Create interactive and dynamic platforms that streamline data collection processes, enhance user experience, and facilitate comprehensive data visualization. Collaborate with cross-functional teams to design metrics, present findings clearly, and contribute to process optimization and enhanced organizational performance.
- Farm mapping using **QGIS** or other tools to enable accurate spatial data analysis and visualization to support agricultural planning and decision-making.

2013 – 2017

EDP - Information Technology Staff
Far East Noble House Inc.

- Installed, modified, and repaired hardware and software, resolving technical issues efficiently.
- Provided IT support to non-technical staff and customers, ensuring courteous and professional service.
- Managed call flow and resolved customer issues using diagnostic tools and independent troubleshooting.
- Monitored, maintained, and backed up Windows systems, including POS hardware and peripherals.
- Performed POS configuration, installation, and routine system upgrades.
- Handled hardware, software, and network troubleshooting, including cabling and system malfunctions.
- Maintained equipment inventories and supported on-site and remote staff with technical issues.
